Local Pension Examiners Round Out Twenty Years Service

The Maysville Board of United States Examining Surgeons round out this month the twentieth year of its existence, having been organized in April, 1884.

The Ledger Man, who keeps in touch with important events, recalls the fact that two of the original appointees are still members of the Board, and when they began work there were probably 200,000 names on the rolls, but the refrain of the old war song was still ringing in our ears: "We are coming, Father Abraham, six hundred thousand more."

The names on the list now probably exceed 800,000.

Every pensionable soldier knows that the best protection of the fund from which he is paid is an honest, fearless and capable Board.

It is a solid buffer against the exploiter and the cheat.

Every claimant makes his own record.

He makes his statement voluntarily in writing and under oath, and this is filed precisely as given in the Bureau of Pensions at Washington.

By this record all claims must stand or fall. The claim may change but the record does not. It is there to vindicate or convict.

There is no record or tradition of any attempt on the part of a soldier to beat the Government through the medium of this Board—a circumstance equally honorable to the soldier who applies for a pension and the Surgeons who report the case.

In one instance, however, there came under its observation one case in which the chief beneficiaries of the pension—a very large one—were the claimant's able-bodied and dependent sons.

A Board is strictly forbidden to reveal the result of an examination in a given case.

It simply describes the disabilities, the Bureau does the rest.

Any crookedness in the record is revealed in the result.

This record is always under the Commissioner's eye to confirm, acquit or condemn.

The Secretary of the Maysville Board is Dr. Anderson N. Ellis. He is also the special examiner in special cases. His experience in the regular and volunteer service adds notably to his qualifications as an examiner for pensions.

The Ledger Man makes grateful acknowledgments to the busy Secretary for his many courtesies to an inquisitive "scooper."

THE LEDGER closes with a health to the very capable and popular Board which began its useful labors in Maysville just twenty years ago.

No disparaging criticism of its character or its methods has ever proceeded from any reputable source.

It has been within its province a judicious almoner of that National bounty, which for many years has flown in generous streams upon the remotest population of the great Republic.

Unlike most official expenditures or appropriations it returns directly to the pockets of the people, and is a lawful recognition and reward of actual personal services in defense of the Constitution and the laws.

The Maysville Board has for many years enjoyed the reputation of making thorough examinations and of treating every claimant with civility, consideration and respect.

These are characteristics which every honest claimant appreciates.
